İzmit, Kocaeli, Türkiye

## PROFILE

At Kocaeli University, I am a student in computer engineering. I have developed myself through freelancing and internships in the software industry, and I also have experience in full-stack development. It's a profession I have had a lifelong interest in. I am someone who works well in teams and enjoys learning new things as well as improving myself while doing so.

## PROFESSIONAL EXPERIENCE

**MeAnalytics** Remote Sep 2023 - Present  
**Software Developer**

In the field of software development, I've worked on e-commerce integration projects, utilizing modern technologies including Next.js for building fast and responsive web applications and Nest.js for managing complex business logic with its modular structure. These experiences not only enhanced my leadership skills but also advanced my technical knowledge.

**ArgeLabs** Kocaeli Jun 2023 - Sep 2023  
**Software Engineer Intern**

During my summer internship at argelabs, I contributed to the development of a corporate web-based messaging application. Leveraging React and Firebase technologies, we engineered a robust solution for efficient communication within organizations. This experience not only honed my coding skills but also provided invaluable insights into collaborative software development practices.

## EDUCATION

**Undergraduate Degree** Sep 2021 - Present  
**Kocaeli Üniversitesi**  
Computer Engineering

## COURSES & CERTIFICATIONS

**React 101, 201, 301, 401** Sep 2023  
Türkcell Geleceği Yazarlar İstanbul, Türkiye
